Example in this ebook PART I THE OLD TOWN CHAPTER I EDINBURGH CASTLE: ITS LEGENDS AND ROMANCES There, watching high the least alarms, Thy rough, rude fortress gleams afar; Like some bold veteran, gray in arms, And marked with many a scamy scar; The ponderous wall and massy bar, Grim rising o'er the rugged rock, Have oft withstood assailing war, And oft repelled the invader's shock. Burns. THE great line of east coast lying between the two headlands of Norfolk and Aberdeenshire is nowhere broken by another so bold and graceful indentation as that of the Firth of Forth. The Forth has its birth among hills that look down on Loch Katrine and Loch Lomond; flows thence in a pretty tortuous course towards the east, forming a boundary-line between the countries of the Gael and the Sassenach; is replenished by the Teith from the Trossachs and by the Allan from Strathmore; meanders at the foot of Stirling Castle, and seems never to weary of weaving its silver windings into that green expanse of country where most the Scottish imagination loves to linger; until at last, when there is poured into it the Devon from the Ochils, its channel widens to the sea somewhat suddenly. But even here the diverging banks, once so near, show an occasional friendly inclination to meet; and at one point there is only a mile of blue water and white waves between them, and then the view widens and the shores part irrevocably, the one stretching away to the extreme "east neuk" of Fife, and looking To Norway, to Norway, To Norway over the faem! and the other rolling with softer curves to the South and England, while the great German Ocean ebbs and flows between. The point where the banks of the Forth are but a mile apart is now spanned by that triumph of engineering, the Forth Bridge,—the largest bridge in the world; but in olden days there was here a famous crossing, and the names of the villages on the opposite banks, North Queensferry and South Queensferry, still carry the mind back to the days when Malcolm Canmore's stately Saxon Queen, Saint Margaret of Scotland, was ferried across here on her way between the palace of Dunfermline and the Castle of Edinburgh. Edinburgh was not then, nor for centuries after, the Capital of Scotland, but merely a useful stronghold near the Borders,—a great rock rising abruptly among woods and lochs and hills, on which, from before the earliest legends of history, a fortress had stood,—an impregnable castle, built so long ago that none knows its origin, nor even the origin of its name. Stow's Chronicle, indeed, dates the foundation of the "Castell of Maydens" 989 B.C., which is a sensational date to mention lightly to the inquiring tourist from the newer world. It is supposed that the name "Castell of Maydens" was gained because, in legendary days, certain Pictish princesses were kept there for safety; and certainly, from those hazy times right on till the time of Mary, Queen of Scots, when she was sent to the Castle for security before the birth of King James, Edinburgh Castle has always been a useful place of safety to which to send royalties and rebels. The earliest authentic romance of Edinburgh Castle is that of Malcolm Canmore and Queen Margaret; and the oldest building extant in Edinburgh is Queen Margaret's chapel in the Castle. The well-known story of Queen Margaret, the grand-niece of Edward the Confessor, is that she and her brother Edgar Atheling and her sister Christian all fled from England and William the Conqueror, and were wrecked in the Firth of Forth. The King of Scotland, Malcolm Canmore, was the son of that Duncan whom Macbeth put out of the way—in Scottish history as well as in Shakespeare's play,—and he had fled from the usurper, and had spent his years of exile at the Saxon Court of Edward the Confessor. Anton Chekhov is revered as a boldly innovative playwright and short story writer—but he wrote more than just plays and stories. In *Alive in the Writing*—an intriguing hybrid of writing guide, biography, and literary analysis—anthropologist and novelist Kirin Narayan introduces readers

to some other sides of Chekhov: his pithy, witty observations on the writing process, his life as a writer through accounts by his friends, family, and lovers, and his venture into nonfiction through his book Sakhalin Island. By closely attending to the people who lived under the appalling conditions of the Russian penal colony on Sakhalin, Chekhov showed how empirical details combined with a literary flair can bring readers face to face with distant, different lives, enlarging a sense of human responsibility. Highlighting this balance of the empirical and the literary, Narayan calls on Chekhov to bring new energy to the writing of ethnography and creative nonfiction alike. Weaving together selections from writing by and about him with examples from other talented ethnographers and memoirists, she offers practical exercises and advice on topics such as story, theory, place, person, voice, and self. A new and lively exploration of ethnography, *Alive in the Writing* shows how the genre's attentive, sustained connection with the lives of others can become a powerful tool for any writer.

Thinking about laser eye surgery? Tired of glasses and contacts? Take a look at this easy-to-follow, step-by-step method for improving poor vision. Hackett's innovative self-help guide includes a basic 12-week program of simple routines and drills that are recommended for correcting nearsightedness, farsightedness, crossed eyes, color-blindness, glaucoma, cataracts, and other serious eye problems. Incorporating Dr. William H. Bates' treatment of systematic exercise and training — techniques generally applied in treating and rehabilitating handicapped patients — the text suggests that relaxation, eyesight training, and skillful use of psychological factors are important elements that can possibly lead to improved eye functions. Bates, a practicing New York City ophthalmologist, first demonstrated his method of improving defective vision in the 1920s. Since then, thousands of people have been helped by methods devised by the doctor and his pupils. A useful aid for anyone experiencing problems with their vision, this practical guide will also be of value to healthcare specialists.

This book investigates the reappearance of the 19th-century dream-child from the Golden Age of Children's Literature, both in the Harry Potter series and in other works that have reached unprecedented levels of popular success today. Discussing Harry Potter as a reincarnation of Lewis Carroll's Alice and J.M. Barrie's Peter Pan, Billone goes on to examine the recent resurrection of Alice in Tim Burton's Alice, and of Peter Pan in Michael Jackson and in James Bond. Visiting trends that have emerged since the Harry Potter series ended, the book studies revisions of the dream-child in texts and films that have inspired mass fandom in the twenty-first century: Stephenie Meyer's Twilight, E.L. James's 50 Shades of Grey and Suzanne Collins's The Hunger Games. The volume argues that the 21st-century desire to achieve dream-states in relationship to eternal youth results from the way that dreams provide a means of realizing the fantastic yet alarming possibility of escaping from time. This current identification with the dream-child stems from the threat of political unrest and economic and environmental collapse as well as from the simultaneous technophilia and technophobia of a culture immersed in the breathless revolution of the digital age. This book not only explores how the dream-child from the past has returned to reflect misgivings about imagined dystopian futures but also reveals how the rebirth of the dream-child opens up possibilities for new narratives where happy endings remain viable against all odds. It will appeal to scholars in a wide variety of fields including Childhood Studies, Children's/YA Literature, Cinema Studies, Cultural Studies, Cyberculture, Gender Studies, Queer Studies, Gothic Studies, New Media, and Popular Culture.

Lani Gerity shows in this book that puppet-making, incorporating both art and narrative, provides an ideal vehicle for therapeutic work. It is particularly valuable in the treatment of dissociative patients, whose symptoms may include disturbances in body image, a dissociated

sense of self, a disrupted sense of history and causality, and a feeling of alienation from the self. Lani Gerity explores the application of this in the context of object relations theory. She shows the creative process working on many levels for dissociative individuals and groups. Making puppets, three-dimensional representations of the human body, helped one patient to integrate her sense of her body image and herself. Using puppets and creating narratives about them encourages patients to build communities and to release themselves from the hold of the trauma of their pasts. Descriptions and analyses of Gerity's work with dissociative patients in the US and Canada is underpinned by a theoretical framework which encompasses theories from the arts therapies and from psychiatry.
