The Sixth Edition of ADVANCED FINANCIAL ACCOUNTING, by Baker/Lembke/King continues its strong coverage of the topics, its well-known clarity of presentation, and its integrated coverage based on continuous case examples. The text is highly illustrated with complete presentations of worksheets, schedules, and financial statements so that students can see the development of each new topic. In the chapters covering consolidation subsequent to the date of combination, the three alternative methods of the parent company's accounting for the investment --basic equity, cost, and fully adjusted equity-- are presented in each chapter and appendices to provide the opportunity to cover the differences in the methods, and to see how the consolidated financial statements are the same regardless of the method the parent company uses to account for the investment. The two international chapters include a comprehensive discussion of accounting for foreign currency derivatives and other forms of derivatives such as interest swaps and options used in today's business arena. The governmental and not-for-profit chapters are comprehensive in their coverages of accounting and financial reporting for these entities, based on the most current GASB pronouncements. The text can be described as: (a) very comprehensive in coverage of advanced accounting topics, (b) extensively illustrated with worksheets and other learning tools, (c) clearly written for students' learning, (d) a very large variety of end-of-chapter materials for homework selections, and (e) current and complete in its coverage of accounting and reporting standards from the FASB and the GASB. Because Advanced Financial Accounting is often taken by students who plan to take the CPA exam, numerous end-of-

chapter materials are provided in the formats as tested on the CPA exam. A wide variety of multiple-choice questions, cases requiring written presentations, and other objective answer format materials is provided.

Advanced Financial Accounting is written for second and third year financial accounting courses on accounting or business studies degrees. It also provides extensive coverage of the syllabuses for the advanced papers in financial accounting and financial reporting of the ACCA, CIMA, ICAEW, ICAI and ICAS. Rigorous in its approach, Advanced Financial Accounting tackles the more complex issues of the subject in a lively and engaging manner. Familiar in its structure and treatment of basic concepts, the seventh edition has, none the less, been thoroughly revised and updated to reflect recent and

This 13th edition introduces learners to general accounting principles and the disclosure requirements of company financial statements. In this comprehensive and up-to-date publication, principles are illustrated through questions and solutions. The learner's understanding of principles is gradually broadened by an increase in the degree of difficulty of the questions that are asked. Self-study is actively encouraged by the inclusion of questions for which the solutions are available to prescribing institutions only. Changes brought about by new accounting standards, issued as a consequence of the South African Institute of Chartered Accountants' Improvement of Accounting Standards Project, have once again been incorporated in this latest edition. "Accounting Standards" is intended to satisfy the specific requirements of learners and to reduce the workload of educators.

Financial statements are the cognitive instrument par excellence to understand a company's profitability, asset trends and financial performance. This volume is divided into three sections and addresses the main themes related to Financial Statements. The first part, "Financial Statement analysis – Main objectives and tools" illustrates the techniques commonly used to analyse and interpret financial statements: reformulations of statement of financial position and statement of comprehensive income and ratios. The second part, "IFRS –Accounting issues" presents the accounting issues of the most significant financial statements captions in accordance with International Financial Reporting Standards (IFRS) applicable on the date of publication of this manual. Consolidated financial statements are the subject of the third part, presenting the fundamental problems that gradually may arise from the consolidation process. The book is intended for all those - students or professionals - who intend to deal in a systematic way with the issues of construction and analysis of financial statements. The content of each chapter is enriched by examples, with the aim of facilitating understanding.

"Leadership and learning are indispensable to each other.." J.F Kennedy in his undelivered remarks. If we let ourselves, we shall always be waiting for some distraction or other to end before we can really get down to our work. The only people who achieve much are those who want knowledge so badly that they seek it while the conditions are still unfavourable. Favourable conditions never come. This book presents a new learning style evident with today's students and addresses accounting industry changes as well. This textbook is not written as a reference text, rather it is written in another form where knowledge can be bridged and tested through questions and answers in a multiple choice format. To gain most from the text, we would advise you to read topics relevant to the multiple choices so as to be able to attempt the questions raised. The answers to the questions are provided towards the back pages of the text. The book will not in small measure assist students in preparation for their regular academic and professional exams. Accounting has evolved over the years especially in the areas of standard setting and global inventions and innovations. The book basically covers advanced topics in financial accounting and & Reporting. It will help broaden the base of Finance Managers, accounting students, accountants, corporate gurus and managers of businesses. Don't

forget that: The more that you read, the more things you will know. The more that you learn, the more places you'll go. Concentrates On Theory Rather Than Accounting Problems. Deals With International And Indian Accounting Standards, Income Measurements, Inflation Accounting, Human Resource Accounting, Mechanical Accounting Etc. Question-Answer First. Has 3 Parts. This Solutions Manual contains answers to questions in the text Advanced Financial Accounting. The main text has been revised to include provisions of the Companies Acts 1985 and 1989, a review of Accounting Standards, Statements of Intent and other professional developments. degree courses, to test understanding and develop interpretational skills when dealing with financial statements. The answers to these are provided in the Solutions Manual. and 3.1 Advanced Financial Accounting. It is also suitable for all advanced level professional accountancy exams and for second and third year degree / diploma courses.

The Eleventh Edition of Advanced Financial Accounting is an up-to-date, comprehensive, and highly illustrated presentation of the accounting and reporting principles and procedures used in a variety of business entities. Every day, the business press carries stories about the merger and acquisition mania, the complexities of modern business entities, new organizational structures for conducting business, accounting scandals related to complex business transactions, the foreign activities of multinational firms, the operations of governmental and not-for-profit entities, and bankruptcies of major firms. Accountants must understand and know how to deal with the accounting and reporting ramifications of these issues.

The new edition of Advanced Financial Accounting is designed to serve either the undergraduate or graduate level of advanced accounting. This fully updated text strives to reflect the changing topics and content in the advanced accounting area of business. It also provides logical structure and careful explanation of complex topics to enhance instructor teachability and student comprehension.
