better tools will be found as you go along." - Napoleon Hill Get ready for an eye-opening journey. Authors include: Tony Rubleski, Bill Hoffmann, Fauna Hodel, Jim Shorkey, Diana Dentinger, Andreas Jones, Nigel Wall, Paul Guyon, Sophia Bailey, Norma Edmond, Ibeh Agbanyim, Tony Fevola, Ana Fontes, Craig Kulesa, Daniel Zykaj, Shaniequa Washington, Shamla Maharaj, Gina Best, Nancy Lee and Amy Thomson. Foreword by Bob Proctor Introduction by Tom "too tall" Cunningham

When you're doing something that's out of the ordinary, your mental programming, your paradigm, will try and stop you. If you want to win, you must keep going. Your paradigms may be masked in complacency, fear, worry, anxiety, insecurities, self-doubt, mental hurry and self-loathing--the result is keeping you STUCK....locked in a box and starved of your dreams and ambitions. To change your life--you MUST change your paradigm. The change is not easy, but it's worth it, and the results are lasting. Bob Proctor will show you his proven methods for doing so. This book will synthesize his decades of study, application, and teaching to:

- Explain what paradigms are and how they guide every move you make
- Teach you how to identify your paradigms
- Show you how to make your own Paradigm Shift
- Help you transform your finances, health and lifestyle when you change your paradigm
- Guide you on how to replace a paradigm that doesn't serve you well with a new one that frees you to create the life you really want

Bob will break through the myth many people have about success--that long hours and hard work are sufficient to achieve lasting success. Because without changing your paradigm, no amount of hard work and long work hours will make a measurable, lasting difference in your success. Once you go through Bob Proctor's Paradigm Shift Process, you will expose yourself to a brand new world of power, possibility and promise. You may think, with this book's title, it's about being calm and cool in the face of pressure. It's actually quite the opposite and more literal. My body actually stopped sweating. This was one of a variety of unusual health issues I faced, partially or wholly brought on by stress. And I had to learn how to get my body to sweat again naturally as no pill or prescription was going to help me. My solution to this and other issues were going to come from within. With people becoming more aware about stress and its incredible health impacts, many of us have found that we can pay a hefty price if we ignore or don't acknowledge it. And I believe it frequently goes undiagnosed in the medical community. This book is about my journey, one I think many of you can relate to. This is not about what I've overcome. It's about what I've learned in the hope it can help others. In this book I will share you with my journey and the key lessons I've learned along the way.

I wrote this book because I know for certain we are all much more powerful than we have ever imagined or allowed ourselves to be up until now. It is my sincere wish that this will help you or someone you love find peace, courage, inspiration and

encouragement to walk the path laid out before you. You will find facts mixed with humor and compassion as you walk my journey with me. I am here to help you find your own courage, your own power, your own unwavering belief in your ability to heal, to grow and to be a shining light.

Historian Ramses Delafontaine presents an engaging examination of a controversial legal practice: the historian as an expert judicial witness. This book focuses on tobacco litigation in the U.S. wherein 50 historians have witnessed in 314 court cases from 1986 to 2014. The author examines the use of historical arguments in court and investigates how a legal context influences historical narratives and discourse in forensic history. Delafontaine asserts that the courtroom is a performative and fact-making theatre. Nonetheless, he argues that the civic responsibility of the historian should not end at the threshold of the courtroom where history and truth hang in the balance. The book is divided into three parts featuring an impressive range of European and American case studies. The first part provides a theoretical framework on the issues which arise when history and law interact. The second part gives a comparative overview of European and American examples of forensic history. This part also reviews U.S. legal rules and case law on expert evidence, as well as extralegal challenges historians face as experts. The third part covers a series of tobacco-related trials. With remunerations as high as hundreds of thousands of dollars and no peer-reviewed publications or communication on the part of the historians hired by the tobacco companies the

question arises whether some historians are willing to trade their reputation and that of their university for the benefit of an interested party. The book further provides 50 expert profiles of the historians active in tobacco litigation, lists detailing the manner of the expert's involvement, and West Law references to these cases. This book offers profound and thought-provoking insights on the post-war forensicization of history from an interdisciplinary perspective. In this way, Delafontaine makes a stirring call for debate on the contemporary engagement of historians as expert judicial witnesses in U.S. tobacco litigation.

The valuable lesson contained in this book is that the best way to attract prosperity is to abandon the pursuit of wealth and allow it to flow toward oneself. The ancient laws of attraction are explained in plain language and applied in an economic framework—a new perspective not found in other popular explications of these principles. A path to prosperity is offered in tandem with guidance for achieving harmony in both professional and personal spheres while strategies to overcome destructive thinking patterns and to sustain the flow of wealth while channeling it constructively are delineated. Profiles of individuals who pursued their passion rather than profit, and subsequently reaped immense rewards, will inspire those seeking to transform their lives.

DO YOU REALLY WANT TO CHANGE YOUR LIFE? Mindset Revolution is a book/course on mental reprogramming that explains step by step how to achieve success in life and achieve happiness. Written in a simple way and with many real-life examples, it gives you all the tools you need to understand how your life is completely in your hands and that nothing is really impossible. You have probably already heard of the Law of Attraction or the theory of Positive Thinking but it is not easy to fully understand what great authors like Bob Proctor, Maxwell Maltz or Wallace Wattles (to name a few of the greatest) want to convey to us. All of us are fundamentally lazy and opportunistic people and therefore we tend to receive messages in the form that is most comfortable and apparently less tiring for us. Therefore, it happens that those who have tried to embark on a path of personal growth have only achieved the opposite effect to the one desired: failure, which is nothing but the confirmation of what they unconsciously thought they were achieving. The truth is that they failed only because they did not understand how to act and why to act in that particular way. In order to be able to change life you need to know three concepts that are decisive in order to act

correctly and that are at the basis of the whole process: Know what your mind is like Know how your mind works Know how to change your subconscious The Law of Attraction is a principle that regulates the cause-effect relationship between thoughts and results. Through a change in your habits and consequently in your actions, you can achieve any goal in life. It always works and if your thoughts are negative, then so will your results. You have understood correctly: in order to achieve different results you have to change your thoughts. But what thoughts? You have to replace the thoughts that are embedded in your subconscious, thoughts that have been formed since your childhood and that limit you every day life. Nothing can change if you do not act directly on your beliefs, if you do not act on your subconscious. The subconscious is your autopilot, it is what guides you throughout the day. You can rationally imagine yourself being rich, but your subconscious will always bring you back to thinking about your taxes or expenses! Mindset Revolution is a real course that combines all the lessons learned by the greatest self-help masters in a single volume. By purchasing MINDSET REVOLUTION, you will finally discover the causes behind all your failures and why some people always manage to get what they want. I've watched men change from confident, decisive, and action-oriented lions to second-guessing, scared-of-their-shadows, don't-rock-the-boat mice. They don't feel confident in relationships, work environments—or anywhere. Men are either looking for something or running from something; maybe it's a bit of both. Well, it's time to stop running. It's time to MAN UP to face the real issues. Being a real man is about being true to yourself first. It means finding strength from living authentically and then sharing that strength with others. Being a real man means understanding who you are and how to influence the world for the better. A real man is an asset to those around him. He doesn't have to "take charge" but he leads the charge, and people want to join in. A real man draws people in. In fact, he is completely irresistible. Men may feel like they have lost the permission they once had to be men, but I'm here to tell you that you don't need permission. You don't need anyone authorizing you to be who you were meant to be. It's time to stop trying to please everyone else. It's time to stop apologizing for thinking like a man, acting like a man, and being a man. It's time to MAN UP!

master of the five progression levels of the Self-Chosen One

Ignorance, or the study of ignorance, is having a moment. Ignorance plays a powerful role in shaping public opinion, channeling our politics, and even directing scholarly research. The first collection of essays to grapple with the historical interplay between education and ignorance, *Miseducation* finds ignorance—and its social production through naïveté, passivity, and active agency—at the center of many pivotal historical developments. Ignorance allowed Americans to maintain the institution of slavery, Nazis to promote ideas of race that fomented genocide in the 1930s, and tobacco companies to downplay the dangers of cigarettes. Today, ignorance enables some to deny the fossil record and others to ignore climate science. A. J. Angulo brings together seventeen experts from across the scholarly spectrum to explore how intentional ignorance seeps into formal education. Each chapter identifies education as a critical site for advancing our still-limited understanding of what exactly ignorance is, where it comes from, and how it is diffused, maintained, and regulated in society. *Miseducation* also challenges the notion that schools are, ideally, unimpeachable sites of knowledge production, access, and equity. By investigating how laws, myths, national aspirations, and global relations have recast and, at times, distorted the key purposes of education, this pathbreaking book sheds light on the role of ignorance in shaping ideas, public opinion, and policy.

Thinking but it is not easy to fully understand what great authors like Bob Proctor, Maxwell Maltz or Wallace Wattles (to name a few of the greatest) want to convey to us. All of us are fundamentally lazy and opportunistic people and therefore we tend to receive messages in the form that is most comfortable and apparently less tiring for us. Therefore, it happens that those who have tried to embark on a path of personal growth have only achieved the opposite effect to the one desired: failure, which is nothing but the confirmation of what they unconsciously thought they were achieving. The truth is that they failed only because they did not understand how to act and why to act in that particular way. In order to be able to change life you need to know three concepts that are decisive in order to act correctly and that are at the basis of the whole process: Know what your mind is like Know how your mind works Know how to change your subconscious The Law of Attraction is a principle that regulates the cause-effect relationship between thoughts and results. Through a change in your habits and consequently in your actions, you can achieve any goal in life. It always works and if your thoughts are negative, then so will your results. You have understood correctly: in order to achieve different results you have to change your thoughts. Nothing can change if you do not act directly on your beliefs, if you do not act on your subconscious. The subconscious is your autopilot, it is what guides you throughout the day. You can rationally imagine yourself being rich, but your subconscious will always bring you back to thinking about your taxes or expenses! Mindset Revolution is a real course that combines all the lessons learned by the greatest self-help masters in a single volume (Theory + Practice) If you really want to transform your life, you have no excuse. If you want to stop hiding and walk with your head held high, there is still an opportunity to do so now. What do you want to do with your only life? **DO YOU REALLY WANT**

The cigarette is the deadliest artifact in the history of human civilization. It is also one of the most beguiling, thanks to more than a century of manipulation at the hands of tobacco industry chemists. In *Golden Holocaust*, Robert N. Proctor draws on reams of formerly-secret industry documents to explore how the cigarette came to be the most widely-used drug on the planet, with six trillion sticks sold per year. He paints a harrowing picture of tobacco manufacturers conspiring to block the recognition of tobacco-cancer hazards, even as they ensnare legions of scientists and politicians in a web of denial. Proctor tells heretofore untold stories of fraud and subterfuge, and he makes the strongest case to date for a simple yet ambitious remedy: a ban on the manufacture and sale of cigarettes.

There was once a poor man who came from a good Christian family. Because he had

many questions, he left home to discover why just a few become rich. His quest led him to a rich man who was not only pious, but kind, loving, and humble. This made the poor man think differently about rich people. The rich man welcomed him to his home, and the poor man wondered why this man was so kind to a poor stranger. For months, the poor man studied the rich one. All my life, he thought, I have been raised to believe that the rich are mean and do not have respect for others, let alone take time to pray to God. But now, I know that the rich also pray. I must ask this man to teach me. So his lessons began, and the rich man taught the poor one everything he needed to know to begin living a fulfilled life. He taught him that it is the blessing of the Lord that makes one rich. He taught him how to cultivate new beliefs. He taught him that he had to change his mental attitude toward people and money. But above all, he taught him that money is but a servant, meant to serve a purpose. The poor man was transformed and became rich himself. He also became an evangelist, spreading the good news to others. About the Author Upon completing a degree in law at the University of Kent in Canterbury, England, Kingsley C. Njoku, a Nigerian, found himself far from home and facing a crossroads. He stumbled upon a centuries-old secret that brought him courage. He discovered the power of positive thinking and faith. Examines the participation of scientists and physicians in the construction of Nazi racial policy and discusses sterilization laws, euthanasia programs, public health policies, and the Holocaust

From the creator of the philosophy foster children are fabulous champions, author and previous foster child herself, Capri Cruz, shows us how to overcome childhood trauma by implementing the effective healing strategies shes used throughout her life of turmoil, which ultimately catapulted her voyage From Foster Care to Fabulous. As an authority in the psychology of emotional healing, she presents techniques to initiate profound subconscious and spiritual transformation, which include perception realignment, inner-mind awakening, and the art of surrendering. Although designed with the foster child in mind, this book is a must read for all as it addresses two fundamental threads encompassing humanity: the human experience and the interpretation of that

experience. The effects of negative childhood experiences often linger with lasting toxicity, which confines the mind to constricted and often unforgiving ideals birthed thereafter. Capri shows us that no longer has to be true! Its time to let the inner healing begin as she peels back the layers to reveal secrets for reprocessing damaging experiences. The simplicity of it is astonishing. By disassembling damaging experiences from childhood abuse to adulthood divorce, then analyzing them through the lens of wisdom revealed within these pages, and reconstructing subsequent perceptions, dynamic change in the trajectory of your life will be imminent. Tie this in with knowledge of deliberate creation and the master piece called your future becomes limitless as pain gets transformed to freedom! Time waits for no one! The sand in the hour glass of life continues to slip away, whether we are mindful of it or not. Thus, let urgency lead the way as you journey into her world for a fresh look at what IS possible. I assure you, the quality of your life depends on it! The healing work within is the seed for the guaranteed reward without.

Nazism remains an enigma. Historians do not know whether to slot Nazism as a phenomenon of the political “right” or “left,” largely because of a misunderstanding of how central eugenics was to the regime. Eugenics, or “racial hygiene,” was at the core of National Socialism’s domestic policy, foreign policy, culture wars, and even Hitler’s obsession with cars, highways, and city planning. Thus, no coherent understanding of the regime is possible without first grasping the nature of eugenics. Eugenics did not

originate with Nazi Germany. It was the culmination of a worldwide movement that was widely accepted by the global scientific and academic community. This book traces the origins of the Nazi eugenics state, working backward down the timeline, tracing from leaf down to the root. We investigate this 100-year trajectory from its beginnings in British and American Academia, delving into the conveniently forgotten inner-workings of a scientific era, uncovering previously unpublished manuscripts, professional correspondence, and conveniently forgotten publications. With the centenary of The Holocaust looming, uprooting the web of professional connections that engendered this movement is in order. The seeds of Holocaust denial take root and prosper with misinformation. Clarity and transparency are imperative, as they leave no room for denial theories that would deprive the victims of justice, or rob the living of a future.
