While serving as a crew chief aboard a U.S. Air Force Rescue helicopter, Airman First Class William A. Robinson was shot down and captured in Ha Tinh Province, North Vietnam, on September 20, 1965. After a brief stint at the "Hanoi Hilton," Robinson endured 2,703 days in multiple North Vietnamese prison camps, including the notorious Briarpatch and various compounds at Cu Loc, known by the inmates as the Zoo. No enlisted man in American military history has been held as a prisoner of war longer than Robinson. For seven and a half years, he faced daily privations and endured the full range of North Vietnam's torture program. In *The Longest Rescue: The Life and Legacy of Vietnam POW William A. Robinson*, Glenn Robins tells Robinson's story using an array of sources, including declassified U.S. military documents, translated Vietnamese documents, and interviews from the National Prisoner of War Museum. Unlike many other POW accounts, this comprehensive biography explores Robinson's life before and after his capture, particularly his estranged relationship with his father, enabling a better understanding of the difficult transition POWs face upon returning home and the toll exacted on their families. Robins's powerful narrative not only demonstrates how Robinson and his fellow prisoners embodied the dedication and sacrifice of America's enlisted men but also explores their place in history and memory.

How do children cope when their world is transformed by war? This book draws on memory narratives to construct an historical anthropology of childhood in Second World Britain, focusing on objects and spaces such as gas masks, air raid shelters and bombed-out buildings. In their struggles to cope with the fears and upheavals of wartime, with families divided and familiar landscapes lost or transformed, children reimagined and reshaped these material traces of conflict into toys, treasures and playgrounds. This study of the material worlds of wartime childhood offers a unique viewpoint into an extraordinary period in history with powerful resonances across global conflicts into the present day.

During the Vietnam War, hundreds of American prisoners-of-war faced years of brutal conditions and horrific torture at the hands of North Vietnamese guards and interrogators who ruthlessly plied them for military intelligence and propaganda. Determined to maintain their Code of Conduct, the POWs developed a powerful underground resistance. To quash it, their captors singled out its eleven leaders, Vietnam's own "dirty dozen," and banished them to an isolated jail that would become known as Alcatraz. None would leave its solitary cells and interrogation rooms unscathed; one would never return. As these eleven men suffered in Hanoi, their wives at home launched an extraordinary campaign that would ultimately spark the nationwide POW/MIA movement. The members of these military families banded together and

showed the courage to not only endure years of doubt about the fate of their husbands and fathers, but to bravely fight for their safe return. When the survivors of Alcatraz finally came home, one would go on to receive the Medal of Honor, another would become a U.S. Senator, and a third still serves in the U.S. Congress. A powerful story of survival and triumph, Alvin Townley's *Defiant* will inspire anyone wondering how courage, faith, and brotherhood can endure even in the darkest of situations.

With a foreword by Senator John McCain. In 1967, U.S. Air Force fighter pilot James Shively was shot down over North Vietnam. After ejecting from his F-105 Thunderchief aircraft, he landed in a rice paddy and was captured by the North Vietnamese Army. For the next six years, Shively endured brutal treatment at the hands of the enemy in Hanoi prison camps. Back home his girlfriend moved on and married another man. Bound in iron stocks at the Hanoi Hilton, unable to get home to his loved ones, Shively contemplated suicide. Yet somehow he found hope and the will to survive--and he became determined to help his fellow POWs. In a newspaper interview several years after his release, Shively said, "I had the opportunity to be captured, the opportunity to be interrogated, the opportunity to be tortured and the experience of answering questions under torture. It was an extremely humiliating experience. I felt sorry for myself. But I learned the hard way life isn't fair. Life is only what you make of it." Written by Shively's stepdaughter Amy Hawk--whose mother Nancy ultimately reunited with and married Shively in a triumphant love story--and based on extensive audio recordings and Shively's own journals, *Six Years in the Hanoi Hilton* is a haunting, riveting portrayal of life as an American prisoner of war trapped on the other side of the world.

What would have happened if the Nazis had invaded Britain? How would the British people have responded – with resistance or collaboration? In Madeleine Bunting's pioneering study, we begin to find the answers to this age-old question. Though rarely remembered today, the Nazis occupied the British Channel Islands for much of the Second World War. In piecing together the fragments left behind – from the love affairs between island women and German soldiers, the betrayals and black marketeering, to the individual acts of resistance – Madeleine Bunting has brought this uncomfortable episode of British history into full view with spellbinding clarity.

Traces the story of the indomitable prisoners of war who survived incarceration in Hanoi, North Vietnam's most brutal military prison, describing how they endured torture while organizing a powerful underground resistance. 50,000 first printing. Shanghai, 1926: a sultry city lousy with opium, warlords, and corruption at the highest levels. Into this steamy morass walks Richard Field, an idealistic Brit haunted by his past and recently appointed to the international police. He's not there long before called to the flat of a Russian prostitute, former daughter of privilege found sadistically murdered, handcuffed to her bed. When he discovers among her possessions a cryptic shipping log, he senses that this murder is more than a random crime of perverse passion. What unfolds is a searing story that propels Field into a confrontation with the city's most ruthless and powerful gangster, and a dangerous attraction to another salacious Russian whose sordid connections seem destined to make her the next victim. Scintillating and subtle, *The Master of Rain* is a marvelous debut.

Readers are introduced to courageous women and girls who risked their lives through their involvement in the conflict in Vietnam. These women served in dangerous roles as medics, journalists, resisters, and revolutionaries. Through their varied experiences and perspectives, young readers gain insight into the many facets of this tragic and complex conflict. An extraordinary journey alongside America's new generation of Eagle Scouts, who are discovering their purpose and bringing the values of Scouting to the world. Over the past century, Scouts have helped to guide the course of American history. But what does Scouting and the Eagle badge mean to the Scouts of today? How will they shape the future of Scouting and America itself? In *Spirit of Adventure*, Scouting expert and Eagle Scout Alvin Townley finds the answer. Townley traveled across the country and to the far corners of the globe to meet these young Eagle Scouts. He found them everywhere, continuing the life of adventure and service that they had begun in Scouting. He discovered them in Afghanistan providing medical care to villagers, in Australia saving coral reefs, at the Super Bowl and Olympic venues striving for victory, on desert cliffs and at inner-city schools teaching new lessons, in Africa bringing hope to children, and on the windswept deck of the aircraft carrier USS Nimitz preparing for takeoff. Whether doctors, activists, servicemen, entrepreneurs, or teachers, these young men are changing the world through bold actions that capture the essence of the Scouting tradition. In *Spirit of Adventure*, Townley answers important questions about the future of Scouting and America, while revealing stories of service, courage, and pure excitement that introduce our nation to an inspiring new generation of leaders.

"With astonishing verve, *The League of Wives* persisted to speak truth to power to bring their POW/MIA husbands home from Vietnam. And with astonishing verve, Heath Hardage Lee has chronicled their little-known story — a profile of courage that spotlights 1960s-era military wives who forge secret codes with bravery, chutzpah and style. home from the jungles of Vietnam. On February 12, 1973, one hundred and sixteen men who, just six years earlier, had been high flying Navy and Air Force pilots, shuffled, limped, or were carried off a huge military transport plane at Clark Air Base in the Philippines. These American servicemen had endured years of brutal torture, kept shackled and starving in solitary confinement, in rat-infested, mosquito-laden prisons, the worst of which was The Hanoi Hilton. Months later, the first Vietnam POWs to return home would learn that their rescuers were their wives, a group of women that included Jane Denton, Sybil Stockdale, Louise Mulligan, Andrea Rander, Phyllis Galanti, and Helene Knapp. These women, who formed The National League of Families, would never have called themselves “feminists,” but they had become the POW and MIAs most fervent advocates, going to extraordinary lengths to facilitate their husbands’ freedom—and to account for missing military men—by relentlessly lobbying government leaders, conducting a savvy media campaign, conducting covert meetings with antiwar activists, and most astonishingly, helping to code secret letters to their imprisoned husbands. In a page-turning work of narrative non-fiction, Heath Hardage Lee tells the story of these remarkable women for the first time. The League of Wives is certain to be on everyone’s must-read list.

When Lieutenant Matt Gallagher began his blog with the aim of keeping his family and friends apprised of his experiences, he didn't anticipate that it would resonate far beyond his intended audience. His subjects ranged from mission details to immortality, grim stories about Bon Jovi cassettes mistaken for IEDs, and the daily experiences of the Gravediggers—the code name for members of Gallagher's platoon. When the blog was shut down in June 2008 by the U.S. Army, there were more than twentyfive congressional inquiries regarding the matter as well as reports through the military grapevine that many high-ranking officials and officers at the Pentagon were disappointed that the blog had been ordered closed. Based on Gallagher's extraordinarily popular blog, *Kaboom* is “at turns hilarious, maddening, and terrifying,” providing “raw and insightful snapshots of a conflict many Americans have lost interest in” (Washington Post). Like Anthony Swofford's *Jarhead*, Gallagher's *Kaboom* resonates with stoic detachment and timeless insight into a war that we are still trying to understand.

“Raw, direct, and powerful...This work is vitally important.”—Ken Stern, former CEO of National Public Radio As a captain in the Army National Guard, Benjamin Tupper spent a year in Afghanistan. Separated from most of his unit, Ben, along with his partner Corporal Radoslaw “Ski” Polanski, served in an Embedded Training Team, teaching, training, and leading into combat the green Afghan troops. But what they experienced went well beyond the assigned mission, and the war proved to be a mix of drudgery, absurdity, and ever-present dangers. Writing and recording from a remote outpost, Tupper began to share his stories with Americans back home. His boots-on-the-ground dispatches were broadcast on NPR’s Morning Edition and published on Slate.com’s military blog, *The Sandbox*. In *Greetings from Afghanistan: Send*

More Ammo, Benjamin Tupper's chronicling of life under fire pulls the reader into the realities of war with poignancy, humor, and vivid reality, offering a unique and compelling firsthand view of the Afghan people, their culture, and a battle for survival that began long before the Americans arrived.

Dori Katz is a Jewish Holocaust survivor who thought that her lost memories of her childhood years in Belgium were irrecoverable. But after a chance viewing of a documentary about hidden children in German-occupied Belgium, she realized that she might, in fact, be able to unearth those years. *Looking for Strangers* is the deeply honest record of her attempt to do so, a detective story that unfolds through one of the most horrifying periods in history in an attempt to understand one's place within it. In alternating chapters, Katz journeys into multiple pasts, setting details from her mother's stories that have captivated her throughout her life alongside an account of her own return to Belgium forty years later—against her mother's urgings—in search of greater clarity. She reconnects her sharp but fragmented memories: being sent by her mother in 1943, at the age of three, to live with a Catholic family under a Christian identity; then being given up, inexplicably, to an orphanage in the years immediately following the war. Only after that, amid postwar confusion, was she able to reconnect with her mother. Following this trail through Belgium to her past places of hiding, Katz eventually finds herself in San Francisco, speaking with a man who claimed to have known her father in Auschwitz—and thus known his end. Weighing many other stories from the people she meets along her way—all of whom seem to hold something back—she attempts to stitch thread after thread into a unified truth, to understand the countless motivations and circumstances that determined her remarkable life. A story at once about self-discovery, the transformation of memory, a fraught mother-daughter relationship, and the oppression of millions, *Looking for Strangers* is a book of both historical insight and imaginative grasp. It is a book in which the past, through its very mystery, becomes alive, immediate—of the most urgent importance.

Most of what Americans have heard about the Tet Offensive is wrong. The brief battles in early 1968 during the Vietnam conflict marked the dividing line between gradual progress toward possible victory and slow descent to a humiliating defeat. That the enemy was handily defeated on the ground was considered immaterial; that it could mount attacks at all was deemed a military triumph for the Communists. This persistent view of Tet is a defeatist story line that continues to inspire America's foreign enemies and its domestic critics of the use of force abroad. In *This Time We Win*, James S. Robbins at last provides an antidote to the flawed Tet mythology still shaping the perceptions of American military conflicts against unconventional enemies and haunting our troops in combat. In his re-examination of the Tet Offensive, Robbins analyzes the Tet battles and their impact through the themes of terrorism, war crimes, intelligence failure, troop surges, leadership breakdown, and media bias. The result is an explosion of the conventional wisdom about this

infamous surge, one that offers real lessons for today's unconventional wars. Without a clear understanding of these lessons, we will find ourselves refighting the Tet Offensive again and again.

While many books have been inspired by the horrors of Andersonville prison, none have chronicled with any depth or detail the amazing tunnel escape from Libby Prison in Richmond. Now Joseph Wheelan examines what became the most important escape of the Civil War from a Confederate prison, one that ultimately increased the Norths and Souths willingness to use prisoners in waging total war. In a converted tobacco warehouse, Libbys 1,200 Union officers survived on cornbread and bug-infested soup, and slept without blankets on the bare floor. With prisoner exchanges suspended, escape and death were the only ways out. Libby Prison Breakout recounts the largely unknown story of the escape of 109 steel-nerved officers through a 55-foot tunnel, and their flight in winter through the heart of the enemy homeland, amid an all-out Rebel manhunt. The officers later testimony in Washington spurred two far-reaching investigations and a new cycle of retaliation against Rebel captives.

Alvin Townley, a critically acclaimed author of adult nonfiction, delivers a searing YA debut about American POWs during the Vietnam War. Naval aviator Jeremiah Denton was shot down and captured in North Vietnam in 1965. As a POW, Jerry Denton led a group of fellow American prisoners in withstanding gruesome conditions behind enemy lines. They developed a system of secret codes and covert communications to keep up their spirits. Later, he would endure torture and long periods of solitary confinement. Always, Jerry told his fellow POWs that they would one day return home together. Although Jerry spent seven and a half years as a POW, he did finally return home in 1973 after the longest and harshest deployment in US history. Denton's story is an extraordinary narrative of human resilience and endurance. Townley grapples with themes of perseverance, leadership, and duty while also deftly portraying the deeply complicated realities of the Vietnam War in this gripping narrative project for YA readers.

In February 1966, Dieter Dengler was shot down over "neutral" Laos in jungle territory controlled by Pathet Lao guerrillas and North Vietnamese regulars, who captured and held him in a fortified prisoner-of-war camp. Already a legend in the navy for his unique escape skills, the German-born Dengler proved to be no ordinary prisoner. Caught in a desperate situation, imprisoned by the enemy and by the jungle itself, Dengler set out to free not only himself but also other POWs—American, Thai, and Chinese—some of whom had been held for years. Bruce Henderson, who served with Dengler aboard USS Ranger, tells the complete story of Dengler's captivity and remarkable escape—based on in-depth personal interviews as well as military archival materials, some never before made public—in this riveting account of unending optimism, courage, loyalty, and survival against overwhelming odds.

Relates the story of a U.S. airman who survived when his bomber crashed into the sea during World War II, spent forty-

seven days adrift in the ocean before being rescued by the Japanese Navy, and was held as a prisoner until the end of the war.

A New York Times bestseller that brings to life one of the bloodiest battles of World War II—and the beginning of the end of the Third Reich. On August 5, 1942, giant pillars of dust rose over the Russian steppe, marking the advance of the 6th Army, an elite German combat unit dispatched by Hitler to capture the industrial city of Stalingrad and press on to the oil fields of Azerbaijan. The Germans were supremely confident; in three years, they had not suffered a single defeat. The Luftwaffe had already bombed the city into ruins. German soldiers hoped to complete their mission and be home in time for Christmas. The siege of Stalingrad lasted five months, one week, and three days. Nearly two million men and women died, and the 6th Army was completely destroyed. Considered by many historians to be the turning point of World War II in Europe, the Soviet Army's victory foreshadowed Hitler's downfall and the rise of a communist superpower.

Bestselling author William Craig spent five years researching this epic clash of military titans, traveling to three continents in order to review documents and interview hundreds of survivors. *Enemy at the Gates* is the enthralling result: the definitive account of one of the most important battles in world history. It became a New York Times bestseller and was also the inspiration for the 2001 film of the same name, starring Joseph Fiennes and Jude Law.

This is a pioneering history of the experience of captivity of British prisoners of war in Europe during the Second World War, focussing on how they coped and came to terms with wartime imprisonment. Clare Makepeace reveals the ways in which POWs psychologically responded to surrender, the camaraderie and individualism that dominated life in the camps, and how, in their imagination, they constantly breached the barbed wire perimeter to be with their loved ones at home. Through the diaries, letters and log books written by seventy-five POWs, along with psychiatric research and reports, she explores the mental strains that tore through POWs' minds and the challenges that they faced upon homecoming. The book tells the story of wartime imprisonment through the love, fears, fantasies, loneliness, frustration and guilt that these men felt, shedding new light on what the experience of captivity meant for these men both during the war and after their liberation.

The dramatic history of living American soldiers left in Vietnam, and the first full account of the circumstances that left them there *An Enormous Crime* is nothing less than shocking. Based on thousands of pages of public and previously classified documents, it makes an utterly convincing case that when the American government withdrew its forces from Vietnam, it knowingly abandoned hundreds of POWs to their fate. The product of twenty-five years of research by former Congressman Bill Hendon and attorney Elizabeth A. Stewart, *An Enormous Crime* brilliantly exposes the reasons why these American soldiers and airmen were held back by the North Vietnamese at Operation Homecoming in 1973 and

Online Library Defiant The Pows Who Endured Vietnams Most Infamous Prison Women Fought For Them And One Never Returned Alvin Townley

what these men have endured since. Despite hundreds of postwar sightings and intelligence reports telling of Americans being held captive throughout Vietnam and Laos, Washington did nothing. And despite numerous secret military signals and codes sent from the desperate POWs themselves, the Pentagon did not act. Even in 1988, a U.S. spy satellite passing over Sam Neua Province, Laos, spotted the twelve-foot-tall letters "USA" and immediately beneath them a huge, highly classified Vietnam War-era USAF/USN Escape & Evasion code in a rice paddy in a narrow mountain valley. The letters "USA" appeared to have been dug out of the ground, while the code appeared to have been fashioned from rice straw (see jacket photograph). Tragically, the brave men who constructed these codes have not yet come home. Nor have any of the other American POWs who the postwar intelligence shows have laid down similar codes, secret messages, and secret authenticators in rice paddies and fields and garden plots and along trails in both Laos and Vietnam. An Enormous Crime is based on open-source documents and reports, and thousands of declassified intelligence reports and satellite imagery, as well as author interviews and personal experience. It is a singular work, telling a story unlike any other in our modern history: ugly, harrowing, and true. From the Bay of Pigs, where John and Robert Kennedy struck a deal with Fidel Castro that led to freedom for the Bay of Pigs prisoners, to the Paris Peace Accords, in which the authors argue Kissinger and Nixon sold American soldiers down the river for political gain, to a continued reluctance to revisit the possibility of reclaiming any men who might still survive, we have a story untold for decades. And with An Enormous Crime we have for the first time a comprehensive history of America's leaders in their worst hour; of life-and-death decision making based on politics, not intelligence; and of men lost to their families and the country they serve, betrayed by their own leaders.

Tap Code shares never-before-told details of underground operations during the Vietnam War while weaving in an inspiring story of true love, honor, and courage as husband and wife endured the hardest circumstances they had ever faced. When Air Force pilot Captain Carlyle "Smitty" Harris was shot down over Vietnam on April 4, 1965, he had no idea what horrors awaited him in the infamous Hoa Lo prison--nicknamed the "Hanoi Hilton." Harris was the sixth American POW captured in the air war over North Vietnam, and for the next eight years, Smitty and hundreds of other American POWs--including John McCain and George "Bud" Day--suffered torture, solitary confinement, and abuse. Their dignity was taken, their wills were challenged, and their bodies were bruised and battered. But in the midst of the struggle, Smitty remembered once learning the Tap Code--an old, long-unused World War II method of communication through tapping on a common water pipe. He covertly taught the code to many POWs, and in turn they taught others. Simple and effective, the Tap Code quickly spread throughout the prison and became one of the most covert ways for POWs to communicate without their captors' knowledge. It became a lifeline during their internment--a morale booster, a vehicle of

Online Library Defiant The Pows Who Endured Vietnams Most Infamous Prison Women Fought For Them And One Never Returned Alvin Townley

unity, and a way to communicate the chain of command--and was instrumental in helping them prevail over a brutal enemy. Back home, meanwhile, Harris's wife, Louise, raised their three children alone, unsure of her husband's fate. One of the first POW wives of the Vietnam War, she became a role model for many wives, advocating for herself and her children in her husband's absence. Told through both Smitty's and Louise's voices, Tap Code shares a riveting true story of ingenuity under pressure, strength and dignity in the face of the enemy, the love of family, and the hope, faith, and resolve necessary to endure even the darkest circumstances.

Top Gun was only part of the story. Fly Navy delves beyond the Hollywood image to reveal the true mettle and genuine story of the elite men and women of naval aviation. For one hundred years, the U.S. Navy's aviators and crews have made the difference on military and peacetime missions around the world. Their unparalleled skill, preparation, and everyday dedication have paid off when it matters most: when lives are on the line. Together, these men and women—officers and enlisted personnel, past and present—have protected freedom, served their country, and forged a legacy of valor like no other. In this landmark book, Alvin Townley takes readers on an adventure around the world and across generations as he goes behind the scenes of naval aviation. From the skies over the Arabian Sea to the jungles of Southeast Asia to carriers patrolling the vast Pacific, he uncovers incredible stories of service members who survived weeks adrift at sea, made midnight rescues in deadly storms, crash-landed behind enemy lines, and found themselves in situations where their exceptional training and focus were the only things standing between life and death. Filled with inspiring personal accounts of courage, camaraderie, and sheer perseverance, Fly Navy pays tribute to the extraordinary individuals who have built naval aviation into the revered force it is today—and will remain tomorrow.

The "inspirational" and "extraordinary" memoir of one of the most courageous of the greatest generation, Louis Zamperini: Olympian, WWII Japanese POW and survivor. A juvenile delinquent, a world class NCAA miler, a 1936 Olympian, a WWII bombardier: Louis Zamperini had a fuller than most, when it changed in an instant. On May 27, 1943, his B-24 crashed into the Pacific Ocean. Louis and two other survivors found a raft amid the flaming wreckage and waited for rescue. Instead, they drifted two thousand miles for forty-seven days. Their only food: two shark livers and three raw albatross. Their only water: sporadic rainfall. Their only companions: hope and faith—and the ever-present

sharks. On the forty–seventh day, mere skeletons close to death, Zamperini and pilot Russell Phillips spotted land—and were captured by the Japanese. Thus began more than two years of torture and humiliation as a prisoner of war. Zamperini was threatened with beheading, subject to medical experiments, routinely beaten, hidden in a secret interrogation facility, starved and forced into slave labour, and was the constant victim of a brutal prison guard nicknamed the Bird—a man so vicious that the other guards feared him and called him a psychopath. Meanwhile, the Army Air Corps declared Zamperini dead and President Roosevelt sends official condolences to his family, who never gave up hope that he was alive. Somehow, Zamperini survived and he returned home a hero. The celebration was short–lived. He plunged into drinking and brawling and the depths of rage and despair. Nightly, the Bird's face leered at him in his dreams. It would take years, but with the love of his wife and the power of faith, he was able to stop the nightmares and the drinking. A stirring memoir from one of the greatest of the "Greatest Generation," *DEVIL AT MY HEELS* is a living document about the brutality of war, the tenacity of the human spirit, and the power of forgiveness.

In July 1945, Miklós, a Hungarian survivor of Belsen, arrives in a refugee camp in Sweden. He is skin and bone, and has no teeth. The doctor says he has only months to live. But Miklós has other plans. He acquires a list of 117 young Hungarian women who are also in refugee camps in Sweden, and he writes a letter to each of them—obsessively, in his beautiful hand, sitting in the shade of a tree in the hospital garden. One of those young women, he is sure, will become his wife. In a camp hundreds of kilometres away, Lili reads his letter. Idly, she decides to write back. Letter by letter, the pair fall in love. When Green Beret Lieutenant James N. Rowe was captured in 1963 in Vietnam, his life became more than a matter of staying alive. In a Vietcong POW camp, Rowe endured beri-beri, dysentery, and tropical fungus diseases. He suffered grueling psychological and physical torment. He experienced the loneliness and frustration of watching his friends die. And he struggled every day to maintain faith in himself as a soldier and in his country as it appeared to be turning against him. His survival is testimony to the disciplined human spirit. His story is gripping.

'This deeply researched, very well-written and penetrating book will be the standard work on the subject for many years to come' - Andrew Roberts, author of Churchill- Walking with Destiny The Second World War began on 1 September 1939, when German tanks, trucks and infantry crossed the Polish border, and the Luftwaffe began bombing Poland's cities. The Polish army fought bravely but could not withstand an attacker superior in numbers and technology; and when the Red Army invaded from the east - as agreed in the pact Hitler had concluded with Stalin - the country's fate was sealed. Poland was the first to fight the German aggressor; it would be the first to suffer the full murderous force of Nazi persecution. By the end of the Second World War, one in five of its people had perished. The Polish campaign is the forgotten story of the Second World War. Despite prefacing many of that conflict's later horrors - the wanton targeting of civilians, indiscriminate bombing and ethnic cleansing - it is little understood, and most of what we think we know about it is Nazi propaganda, such as the myth of Polish cavalry charging German tanks with their lances. In truth, Polish forces put up a spirited defence, in the expectation that they would be assisted by their British and French allies. That assistance never came. First to Fight is the first history of the Polish war for almost half a century. Drawing on letters, memoirs and diaries by generals and politicians, soldiers and civilians from all sides, Roger Moorhouse's dramatic account of the military events is entwined with a tragic human story of courage and suffering, and a dark tale of diplomatic betrayal.

After the Vietnam War ground to a bloody halt, long after the boys were officially sent home, evidence remained that over 2,000 American soldiers were still missing in Southeast Asia. In this shocking expose, journalist Nigel Cawthorne examines the evidence -- from CIA documents and Pentagon files to the streets of Hanoi.

Denton, a Navy pilot, recounts his experiences as a prisoner of war held in Hanoi's infamous Hanoi Hilton prison complex. John M. McGrath, a young Navy pilot who was captured in 1967 after being shot down over Vietnam, vividly presents a straightforward and compelling tale of survival, of years of suffering, and of the human will to endure. During the era of the unpopular Vietnam War few issues united the American people as did the emotion-laden problem of POWs and MIAs. When the peace treaties were finally signed and the POWs returned to American soil, the nation was collectively relieved by their safe return. A self-taught artist, the starkness of McGrath's drawings underscores his remarkable and moving chronicle of the lives of these prisoners, who were constantly in peril, attempting to survive a brutal captivity almost unimaginable in civilized times.

The heroic story of eleven American POWs who defied certain death in World War II, As Good as Dead is an unforgettable account of the Palawan Massacre survivors and their daring escape.

During the Vietnam War, American POWs faced brutal conditions and torture at the hands of North Vietnamese guards and

interrogators who plied them for intelligence and propaganda. Determined to maintain their Code of Conduct, they developed an underground resistance. Their captors singled out its 11 leaders and banished them to a jail that would become known as Alcatraz. As these men suffered in Hanoi, their families launched a campaign that would spark the nationwide POW/MIA movement. When the survivors came home, one would receive the Medal of Honor, another would become a U.S. Senator, and a third still serves in the U.S. Congress. Alvin Townley's *Defiant* will inspire anyone wondering how courage, faith, and brotherhood can endure even in the darkest of situations.

How is it that during a war, one can still find gardens? In the most brutal environments, on both the home front and the battlefield, they continue to flourish. Wartime gardens are dramatic examples of what Kenneth I. Helphand calls “defiant gardens” — gardens created in extreme social, political, economic, or cultural conditions. Illustrated with archival photos, this remarkable book examines gardens of war in the 20th century, including extraordinary examples built behind the trenches in World War I, in the Warsaw and other ghettos during World War II, and in Japanese-American internment camps, as well as gardens created by soldiers at their bases and encampments during wars in the Persian Gulf, Vietnam, and Korea. Winner of the Environmental Design Research Association award and other honors, *Defiant Gardens* proves that these man-made constructs are far more than decorative diversions or simple sanctuaries from the stresses of daily life.
