

## Earth Science Geology The Environment And The Universe

Based on the Cornell note-taking format, this resource incorporates writing into the learning process. Directly linked to the student text, this notebook provides a systematic approach to learning science by encouraging students to engage by summarizing and synthesizing abstract concepts in their own words

This resource offers 60 popular, tested labs and supports hands-on experience for students with diverse abilities. 17 labs are designed to be open-ended "Design Your Own" labs; 10 are mapping labs that will create opportunities to enhance essential earth science skills.

Exploring Environmental Problems includes calculator and Global Positioning System labs. Lab problems reinforce environmental concepts presented in the textbook, but can also be used in conjunction with other high school science texts.

Challenging, comprehensive and relevant, this textbook combines in-depth presentation with a stunning visual program. Earth Science: Geology, the Environment, and the Universe is a comprehensive program that provides thorough content with a wide variety of engaging laboratory experiences. Relevant connections are highlighted to emphasize an environmental application between the classroom and the contemporary world. Strong support is given to math skills using the content.

2005 State Textbook Adoption - Rowan/Salisbury.

Glencoe Earth Science standardized test preparation

Glencoe Earth Science Geology, the Environment and the Universe Glencoe Earth Science: Geology, the Environment, and the Universe, Student Edition McGraw-Hill Education

Strong support for reading comprehension makes earth science accessible to all students.

The StudentWorks Plus DVD provides the complete Student Edition, student worksheets, and audio in one convenient package!

The sixteen labs in the Exploring Environmental Problems Lab Manual provide two types of labs: Calculator-Based Labs and Global Positioning System (GPS) labs. The lab problems reinforce environmental concepts presented in the textbook, but they can be used in conjunction with any other high school Earth science text.
