*How to Love the Sh*t Out of Life* is a self-help guide for young adults. It is about enjoying life and being positive. Hurley takes experiences from the people in her life and observations of those around her, to showcase these positive strategies. She is not a professional life-coach, but her experiences have provided her with a rich background to draw from and the reader will realise she is someone they can relate to in everyday situations. Her humour and her well founded 'common sense' make this an enjoyable and enlightening read.

In confronting each other, the two men must confront the demons which have driven them to Brooke, the street, and each other.

this is a once in a lifetime, to get an opportunity to share in a true insight about love, life, and relationships, how we can get comfortable in relationships, about life and loving each other, how you can undermine the presence of someone's life in your life. It begins with you as a person before you can even go further, that you should always give everything that you have, don't undermined love for someone in your life. The world has changed so much that we have reached a certain stage in life where alot of things have come in between life and loving each other, the world has been mastered by alot of people in life, if you are not careful when loving a human being, you can fell on the wrong side of life. You can work through life until you become a Master at your field but that just define the part of life alone, life defines your individual purpose, but love calls you into focusing on learning how to live with someone, with understanding in a peaceful and loving environment for the other that has come in your life as well. You must learn how to value love in your life as the presence of someone in your life could never be repeated again, alot of people before they can go through a situation of breakdown in life they have lost their focus because they didn't realise how important is love and loving someone. Man and woman must learn to value life and love in this world, before you can get lost because of lacking seriousness in relationships. Without love human beings can get lost more than they can ever imagine, the world has been created in two forms, love and life. You can't neglect one and be normal, you will feel the strain of living without the other, whether you want to master life or not you must understand the importance of both in life. An inspiration about life or love is a reflection about life and love, and how people should acknowledge the time they have spend with each other in relationships, how so much that you have done has formed part of who you are. So much that you can have in a relationship can feel like it is something that you can be able to find somewhere, but nothing can ever offer you more than what you have already, and remember that what you have is for the rest of your life. When you give yourself to love, love with everything that you have, don't hold back on love or look down on someone who loves you, give your heart to your partner so that you can be satisfied with how you have loved a person. There is so much that can come between in life, when you are not careful about love, or when you have neglected your duties to love someone, with everything that there is in life, the world has become so binding that if you undermined loving someone, you can become very vulnerable to everything that there is in life. Life cannot harm you when you are committed to loving your partner only when you overlook your obligation to love your partner, you can become a victim of life like that. So take every opportunity available to love and use it wisely, because you cannot always have everything your way in life.

There are ways to become a better lover. There are ways you can learn about how to love, become more loving, and continue to give the best version of the love you can share. This book contains the homespun wisdom and insights of Napoleon Nalcot, structured as poems (mostly of which are modified couplets), in an attempt to put together the elements that, as he believes, can form and complete the pattern on how to love and continue to love. However, it's not a one-size-fits-all manual on how to love someone and keep on loving that same person since each person has different levels of needs to express love and affection, as well as having a different level of understanding of the subject. But some specific ideas that are being discussed in this book may be most helpful for some people. You may disagree with some of what the author is trying to convey in this book, but if you ever decide to give it a try—for what this knowing how to love and keep on loving can offer—then here's hoping that this book can serve its purpose well in you. May this book find its way resting in the bosom of so many people to serve its purpose in them as well—a gift to those who read and internalize its contents.

We feel jealous when we believe that we are not worth of our partner's love and appreciation. After a while, jealousy starts to change our lives by bringing disaster and chaos hurting both us and our loved one. Can we put an end to this negative emotion? Aarika Raji tells that this is possible. In her book, How To Love While Being Jealous, she explains that cause of jealousy is not in the way our partners behave, but it has its roots in the structure of our personality, perhaps in the traumas of our childhood or simply appears when we do things that hurt our self-esteem. Through her optimistic and positive view of life, Aarika has helped many people on how to confront jealousy and use the power of love and honesty to find their inner path towards self-healing. With the help of her simple and easy-to-understand style of writing, we are gently guided towards our inner self where we find the solution to heal jealousy and possessiveness once and for all. " We are the servants of our happiness. Life is beautiful. We have to learn how to spark the sensibility, to form clean and optimistic habits." - Aarika Raji, from the book

"How to Stay Married & Love It!" Solves the puzzle of how to create and sustain a loving, passionate, healthy relationship. This volume in the two volume series covers the four essential pieces for building a strong foundation: Accepting each other's point of view as valid, (2) Fostering intimate connection by learning and using great speaking and listening skills, (3) Committing to respect each other 24/7 by productive management of upsets, and (4) Committing to each other and the relationship for life. Nancy and her late husband Jim share these skills which they learned as they navigated the mine field of enormous conflict to the SoulMate marriage of their dreams. Illustrations are also shared from couples they taught in their classes and who were personally coached by Nancy. Marriage is skill-based. It either succeeds or fails based on how the partners treat each other. Failing love is the result of poor relationship skills. Love returns, often greater than before, when new, effective ways of managing communication and conflict are learned and consistently applied. Giving up on a marriage because the love is gone is like selling a car because it ran out of gas! This book demonstrates "How to..." heal from past hurts, find solutions that meet both persons' needs and reignite love or build on the love you already enjoy!
