This volume addresses the beauty of convention not in an attempt to recapitulate established values (as, luckily, in literature and culture, there are not absolute beauties that serve everyone and always), but as an aesthetic appreciation of form as a keeper of meaning and as an ethical post-cynical metadiscourse on human dependence on symbolic interaction and generic conventions. Looking into the artificial, invented, side of this concept, the book addresses such questions as: What is beauty by virtue of convention? How does convention generate beauty? How does it happen that a convention acquires a normative force? What is the nature and the "logic of situation" that leads to the arbitrary conventions? How are alternative conventions made? What is inertia, and what real joy or belief ensures the stability of convention? Is there a natural correctness that enables the stability of convention? How does convention determine linguistic meanings? Can interpretation avoid convention? Without imposing one

convention and how it generates beauty by employing numerous contemporary reading strategies and diverse cultural, ethnic, gender, psychological, and textual perspectives. Primary focus is given to various literary texts ranging from early classics to modernism and contemporary writing, though there are also discussions on other forms of human expressions, such as music, dance and sculpture. This book will contribute to the ongoing discussion about the ambiguities inherent in the concept of convention, and, thus, stimulate intellectual confrontation and circulation of ideas within the fields of literature and culture.

Many of Bob Dylan's most well-known works date from the 1960s, and can be seen as critical indicators of the changes in American society then and since. This book explores the unthreading of ideas about masculinity, femininity, sexuality, and identity through the lens of some of Dylan's most popular love songs. The author revealingly employs specific aspects of cultural theory to explore the appeal of Bob Dylan's music both now and during the time it was written.

Values Across Cultures and Times is a collection of sixteen articles examining the concept of values understood in its broadest sense as the need of the modern man to examine, redefine, and reconstruct previous theories, histories, moralities, social relationships, forms of language and language use. In times of great change, preserving traditional values seems to be particularly difficult, and the authors of these essays respond to the challenge, and approach the notion of changing values from the perspectives of literary studies and linguistics. The book opens with an introductory overview, followed by sixteen articles divided into three sections. The book is aimed at a broad academic audience, while the popular style of the articles also makes the volume appealing to a wider audience interested in different aspects of values. The authors of the articles come from Serbia, Macedonia, Bulgaria, Romania, and the United States.

The Lives of Texts: Exploring the Metaphor examines various instances of "textual subsistence" implied by the title. Drawing on the parallel between a text and a living organism, the contributors analyze various literary texts ranging from the Middle Ages to postmodernity, as well as film adaptations and the graphic novel. Apart from the works of canonical writers, attention is also drawn to some long-forgotten authors, along with the most recent instances of popular literature and culture. The exploration of the title metaphor allows the contributors to trace

life-like phenomena (e.g. textual birth, maturation, dissemination, death and resurrection) in the texts of writers so remote from each other as Layamon, Thomas More, Mary Shelley, Charles Williams, Ursula Le Guin, A. S. Byatt, Peter Ackroyd, Iain Banks, J. K. Rowling, or Neil Gaiman.

Chick lit is the marketing label attributed to a surge of books published in the wake of Helen Fielding's Bridget Jones's Diary (1996) and Candace Bushnell's Sex and the City (1997). Branded by their pink or pastel-coloured book covers, chick-lit novels have been a highly successful and ubiquitous product of women's popular culture since the late 1990s. This study traces the evolution of chick lit not only as a genre of popular fiction, but as a cultural phenomenon. It

complicates the genealogy of the texts by situating them firmly in the context of age-old debates about female literary creation, and by highlighting the dynamics of the popular-fiction market. Offering a convincing dissection of the formula which lies at the heart of chick lit, as well as in-depth analyses of a number of chick-lit titles ranging from classic to more recent and edgier texts, this book yields new insights into a relatively young field of academic study. Its close readings provide astute assessments of chick lit's notoriously skewed representational politics, especially with regard to sexuality and ethnicity, which feed into current discussions about postfeminism. Moreover, the study makes a unique contribution to the scholarly debate of chick lit by including an analysis of the (online) fan communities the genre has fostered. The Cultural Politics of Chick Lit weaves a sound methodological network, drawing on reader-response criticism; feminist, gender, and queer theory; affect studies; and whiteness studies. This book is an accessible and engaging study for anyone interested in postfeminism and popular culture.

The West Wing, first broadcast in 1999, is thought by many to have been one of the most significant dramas shown on network television. Despite its overly idealized depiction of American political life, and blatant contradictions in the way we consider America, its values, its aspirations, and its behavior in the world, The West Wing nonetheless succeeds in attaining popular national and international aesthetic appeal. This book aspires to explain the appeal of the show by considering issues such as race, religion, sexuality, disability, and education--from both a practical and theoretical perspective--through the lenses of feminism, gender theory, Marxism, psychoanalytical theories, structuralism, poststructuralism, postcolonialism and more. It seeks to offer informative and revealing readings of one of the most significant television productions of recent times.

If we have established that our approach to the phenomena that are other to us is always a matter of semiosis, and that even in an attempt to naturalize phenomenology, like the one made by Maurice Merleau-Ponty, who points to the corporeity of consciousness as much as an intentionality of the body, it appears that our most negligible movements present our cultural being or habituality (cf. Iris Young, Throwing

Like a Girl, 1990, 2005). However, many thinkers have claimed (for example, the novelist D. H. Lawrence or philosopher Luce Iragary) that we know by touch and intuition. The papers collected in this book examine our approach to these issues in an essentially post-theory world, particularly enquiring if twentieth century theory has left us clear directions of where we are supposed to be looking for new ways of understanding and representing the phenomenological. The way the Other exists in the consciousness that, as Hegel said, always pursues its death, becomes especially interesting in the context of the development of Anglo-American studies in the postpostmodern world which sees the West as a changeable cultural (and geographical) concept that incorporates a multiplicity of others. Yet, at the same time, a number of contemporary Anglo-American writers insists on the prolonged effects of colonialism in the modern world, in which outbursts of violence and hatred aimed at the Other prove that the modern world still cannot approach the Other without bigotry. ???????????Stephenie

This study focuses on shorter prose texts in post-War Germany, especially works by Durrenmatt, Hochhuth and Walser. Bringing to bear different but complementary approaches, Dr. Plouffe considers the Novelle and its Anglo-Saxon counterparts, the short story and novella, in their shared themes of uncertain existence and ambiguity of language - motifs deriving largely from Freud and Lacan.
