¡Claro que sí! is a proven, integrated skills program with a strong emphasis on developing oral proficiency and cultural competence. The text's combination of relevant themes, lively practice, and engaging technology tools allows students to start communicating early and with confidence. The authors' philosophy and approach cultivate active learners. Six solid principles of learning form the foundation of the text: students learn by doing; language is culture and culture is reflected in language; skill integration promotes language development; self-expression facilitates greater language proficiency; systematic recycling enables

students to move from learning to acquisition; and engaging material enhances learning. Up-to-date cultural information appears throughout the text in the ¿Lo sabían? culture notes and in the chapter-opening Datos interesantes feature, introducing facts relevant to each chapter's content. The ¡Claro que sí! video features footage from five Spanish-speaking countries. A mix of interviews and documentary-based segments allow students to see how geography and ethnicity influences the everyday lives of Hispanics. At the same time, students increase their cultural awareness through ongoing contrast and comparison of social practices, products, and other topics. To support independent and classroom viewing, pre- and post-viewing exercises appear after each even-numbered chapter in the text.

Economics: Principles in Action is a multi-dimensional, comprehensive high school economics program designed to help students of all abilities achieve a fundamental understanding of key economic principles and their application in the real world. Twenty key economic concepts - developed by The National Council on Economic Education and outlined in the Voluntary National Content Standards in Economics - are introduced and reinforced throughout the program. At the heart of Economics: Principles in Action is

demonstrating the relevance of economics to students' lives. From case studies and videos to interactive CD-ROMs, the program clarifies key economic principles and help students understand the connections between those principles and everyday life. Spanish language text features student-centered instruction, attention to all four language skills, contextualized vocabulary, and an integrated approach to culture. Junior-senior high level.

This book contains a collection of problems on language acquisition. The first part of the book deals with first and bilingual language acquisition in a naturalistic situation. The second part presents problems on second language acquisition, both in a naturalistic and in an instructed situation. The third part of the book contains activities based on scenes of the video Talking in a second language. The aim of the book is twofold. It tries to provide students and teachers-to-be at different language acquisition courses in our universities with authentic material from our own language acquisition context. At the same time, its examples from real data may also be of interest to researchers in the fields of language acquisition and applied linguistics as the basis for discussion and further research.
