Exercises emphasizing problem-solving strategies necessary to comprehend fractions and decimals.

Trying to make sense of the horrors of World War II, Death relates the story of Liesel--a young German girl whose book-stealing and story-telling talents help sustain her family and the Jewish man they are hiding, as well as their neighbors.

25 reproducible tests covering: reading; writing; grammar & usage; vocabulary & word skills; study & research skills; and spelling. Includes scoring guides and answer keys.

25 reproducible tests covering: world understandings; world geography; map skills; world history; U.S. history; U.S. government & citizenship; keeping track of skills. Includes answer keys.

This set of standards-based reproducible activity pages is basic, not boring. In this book, students tour the American government and economy with a sassy American eagle named Egbert. They'll review important facts about the structure of the government, the workings of the economy, and the rights and responsibility of citizens. An assessment, glossary, and helpful lists are included.

This book introduces students from middle years to World geography. Each page invites the learner to try high interest, appealing exercises that will help students with a new skill, reinforce an existing skill or assess a student's performance or understanding. This is no ordinary fill-in-the-blanks way to learn. The activities in World Geography take students around the world. On an exciting trip to the Australian outback and on an African adventure, students learn about the world around them. Students will enjoy and develop an understanding about the world around them. The pages are written with the assumption that an adult will be available to assist the student with their learning and practice.

Basic Not Boring Years 5-6 is an interdisciplinary resource designed for middle years students, and covers the key learning areas of English, maths, society and the environment through mapping skills, measurement, grammar usage, writing skills and problem solving. The book provides tools for reinforcing concepts and skills for identifying areas that need additional attention. Each section contains a list of skills for the content area, student exercises, a ready-to-use assessment tool and a complete answer key.

English and simplified Chinese edition of Stuart Little - the EB White classic. In Simplified Chinese. Distributed by Tsai Fong Books, Inc.

This is a book of science tests for middle year students. It will provide teachers with tools for keeping track of how students are progressing on skills or standards. It's everything you've wanted in a group of ready-made assessments. The tests cover all the basic skill areas for science. There are 23 tests within 5 areas: science concepts and processes, life sciences, human body and health, physical science, and earth and space science. The tests are student-friendly and the students will be surprised that they are tests at all.

The pages are inviting and fun. Four inquisitive scientists ramble through the pages, leading students through unique and interesting challenges and investigations.

A little girl comes to live in his uncle's lonely house and discovers a boy, her handicapped cousin and a mystery of a locked garden.

The Simplified Chinese edition of The Giver, a 1993 American young-adult utopian novel by Lois Lowry.

The Simplified Chinese edition of The Giver, a 1993 American young-adult utopian novel by Lois Lowry.

Students learn new words through fun-filled activities.

25 reproducible tests covering: science concepts & processes; life science; human body & health; physical science; earth space & science; keeping track of skills. Includes answer keys.

Students learn new words through fun-filled activities.

Mom, I am so bored! His mom replied: Go on and find something to do! Thus, a not so boring story starts... What is boring? Will a bug get bored? Will the carrots on the plate get bored? This is the best boring game! Everyone gets bored. Let's use this book to talk about what is boring and guide them to accept their emotions.

The Middle Grades Math Book, as part of The BASIC/Not Boring Series, uses exciting adventures and delightful characters to teach essential skills. This comprehensive resource covers the fundamental math skills of "Geometry & Measurement," "Problem Solving," "Whole Numbers & Integers," "Fractions & Decimals," "Graphing, Statistics," "Probability," and "Pre-Algebra." Skills practiced in the book are correlated to NCTM Standards.
