Dearly beloved, we are gathered in this month of June for a wedding at the Parker family ranch. Or so the invitation says! Little does the family know that not just one Parker sister is getting married, but three. After several failed attempts at their on-again, off-again romance, Justin and Mason face a contract that could end their relationship for good. Meanwhile, Naomi and Cameron's need to overcome more than a few hurdles, including the question of whether her father will ever accept a man who has wealth and position but never his approval. Finally, there's Scarlett and retired racecar driver Emmett, a single father with a son who's determined to see that Scarlett and his father never say "I do." Will this be the wedding of the season, or will three sisters end up with broken hearts?

This is the story of the 1820 Settler, Jeremiah Goldswain, in his own words. After thirty-eight years on the eastern boundary of the Cape Colony, he sat down to write his memoirs. It is a close-up view of four decades during a period when the British Empire was expanding in southern Africa, with the borders being pushed ever farther into the hinterland by successive governors. As a result, there was constant conflict between the African tribes and the colonists. Jeremiah was directly involved in three of the nine Frontier Wars that occurred between 1779 and 1879. It is the story of hardship and the struggle for survival of Jeremiah and his family—his wife Eliza and their ten children—on one of the most volatile borders the world has ever seen. Even in peacetime the conflict and violent clash of cultures were constantly present and many settlers were murdered, including members of Jeremiah's family. Through all this we see a man making his way in a world he could not have imagined while growing up in rural Buckinghamshire. He lived during an important historical time for South Africa, not only observing and fighting the wars, but meeting and serving with some of the most famous names in South African history. He saw, in detail, the effects of the Cattle Killing of 1856, the Boer uprising in the Orange River Sovereignty, as well as several other famous and notorious historical events. The text has been published once only—by the van Riebeeck Society in 1949—and since then has been used by scholars and historians as a primary source. It has not been widely read, because Jeremiah had no education, and although he had an extraordinary ability to describe experience and express his emotions, he was a stranger to the conventions of written language. Now Ralph Goldswain has transcribed the original text into an accessible account of forty years of frontier history.

Jan & Dean were among the most successful artists of the late 1950s through the mid-1960s, with hits including "Baby Talk," "Surf City," "Dead Man's Curve" and "The Little Old Lady (From Pasadena)." Slapstick humor and offbeat personas were a big part of their shtick, but Jan Berry was serious when it came to the studio. This book chronicles Jan's career as a songwriter and arranger--and his tenure as producer for Jan & Dean and other acts--with day-by-day entries detailing recording sessions, single and album releases, concerts and appearances, film and television projects, behind-the-scenes business and legal matters, chart positions and more. Extensive commentary from Berry's family, friends and colleagues is included. Studio invoices, contract details, tape box notes, copyright information and other particulars shed light on how music was

made in the Hollywood studio system of the 1960s.

This collection highlights and extends contemporary women's and gender studies by presenting theoretical analyses and innovative research conceptualizations, applications and methodologies via a diverse variety of popular-in-the-classroom topics, such as changing masculinities; comedic/dramatic portrayals of ethnicity and discrimination; stigma and differences within mainstream media gender stereotypes; intersections of gendered and sexual identities in social media and fundamental institutions. These topics emphasize relevant issues and nuances within popular culture, identities and perceptions and social problems and illustrate the breadth of gender studies and its applications, while the diverse methodologies like historical comparisons; ethnographic, demographic and statistical analyses, demonstrate its epistemology. Each chapter remains solidly founded in gender theory while making significant innovative contributions to the overall field.
