Defines the sociology of missions as a discrete subdiscipline within the sociology of religion.
"The sociology of missions is a discrete subdiscipline within the sociology of religion. It is concerned with the study of the social structures, processes, and interactions that surround and shape religious missions. This includes the study of the social organization of missionary societies, the role of missionaries in different cultures, and the impact of missions on the societies they serve. The sociology of missions is a relatively new field of study, but it has become increasingly important in recent years as the world becomes more globalized and interconnected. This book provides a comprehensive overview of the sociology of missions, covering both the historical and contemporary contexts. It also includes a range of case studies and examples to illustrate the key concepts and theories discussed in the text."

Postmarxism is often depicted as a point of intersection for a set of interdisciplinary theories that are in themselves complex and dense. Bringing the postmarxist theory of Ernesto Laclau into the field of political sociology through a close reading and analysis of postmarxism and its relationship to 'the social', A Sociology of Postmarxism develops key postmarxist arguments in an engaging and sociologically applicable way. Indeed, through a threefold method of analysis, Howson first unpacks the relationship between 'the social' and 'the political' by analysing key allied theories to show where the points of connection occur. This is then followed by an insightful analysis of the key features of postmarxist theory such as antagonism and the inevitability of social dislocation, the political importance of hegemony; and the empty signifier thesis and
